Ripon Area School District Invites Community to Tour Construction Project

Ripon, WI – The Ripon Area School District Board of Education and Administration invite the community to attend a tour of the construction at the future combined middle and high school facility. Construction for the project began in April 2015 and the community is encouraged to come see the progress on January 18th from 4:30 to 5:30 pm, before the Monday night Board meeting. The project has advanced greatly since the last community tour on November 16. Community members interested in attending should meet at the construction trailers on E. Sullivan Street. Tours will be led by CG Schmidt, the construction management firm completing the project, and hardhats will be provided for Ripon area residents.

The construction will result in a combined middle and high school facility with separate entrances, commons, administrative offices, and classrooms for each school. The high school will move into the new additions in spring of 2016, while the middle school will move into renovated areas of the existing building in August of 2016. The Board encourages the community to stay informed and check the District website for additional information. Weekly Construction Updates are shared on both the RASD website and Facebook page. Please contact Superintendent, Dr. Mary Whitrock, at whitrockm@ripon.k12.wi.us with any questions.
