## FROM OUR COMMUNITY...

“ The top priority needs to be the education of all children in the school district, best achieved through maintaining small classes, providing students with appropriate technology, ensuring access for all, and giving teachers the tools they need to teach our students. ”

“ Our district offers a variety of courses, extra-curricular activities, and schools to meet the needs of all students. The teachers and administration team continually pursue methods that will advance learning. I feel confident that our students are prepared for the workforce or post-education opportunities upon graduating. ”
