

## Physical Education Graduation Requirement Substitution Option

Students may complete an additional one-half credit in English, social studies, mathematics, or science in lieu of one-half credit of physical education when they participate in a WIAA-sanctioned sport as part of the District's athletic program. A required course or credit may not count for the one-half credit substitution course; the one-half credit substitution course must be in addition to the minimum graduation credit requirement for the English, social studies, mathematics, or science subject areas. Participation in the sport itself does not constitute a course and does not qualify for any high school graduation credit.

The flowing criteria must be met for participation in a sport to be eligible for substituting an English, social studies, mathematics, or science course for one-half credit of physical education:

1. The student must participate in a junior varsity-level or varsity-level sport for an entire season during grade 11 or the fall season of grade 12.
2. The student must submit to the principal confirmation of regular attendance at practices and participation in competitions with a verification form completed by the coach no later than two weeks after the conclusion of the season.
3. The student must not have been out for more than two weeks for injury or illness during the sport season.
4. The student must not have had any violation of the Co-Curricular Code resulting in a suspension of one or more competitions during the sport season.
5. The student must be an athlete who is eligible to compete for the entire season.
